MAIN RESEARCH FIELDS AND THEMES

Prime Research Fields

Southeast Asia (field research since 1993); Indonesia (field research since 1993); Timor-Leste (since the 1990s, field research since 2003).

Main Research themes

South-East Asia / ASEAN / Indonesia / Timor-Leste / Regional and national geopolitics and geoeconomics / Territory-Town-Coastal Planning / Governance / Environment - Climate Change - Disaster management - HADR / Social Cohesion

Scientific affiliation

Associate Senior Researcher in Geography to the French Research Institute on Contemporary Southeast Asia (IRASEC, MEAE-CNRS UAR 3142-Umifre 22, Bangkok)

& Associate Researcher to Centre Asie du Sud-Est (CASE ; EHES/CNRS/INALCO-UMR 8170 ; Paris)

Past collective research programs within IRASEC

. I carried on IRASEC 5th research topic: Societies, Environment and Climate Change. This led me to organize a number of events in the frame of the research program IRN-SustainAsia (French CNRS; 2018-2023) undertaken with 4 other French Asia-based UMIFRES (CEFC Hong Kong, CSH Delhi, IFP Pondicherry, MJF Tokyo) + IRD and their Asian partners (e.g. Chulalongkorn University and UNUD University as IRASEC partners) on « Inclusive Growth and Sustainable Development in Asia: Governance and Societies Confronted with Environmental Challenges ».

. I was the coordinator (2016 - 2019) for IRASEC of a research program selected and granted by the UE/ASEAN funded Regional Forum on Climate Change (RFCC; Bangkok) (with additional funding from other partners like the French Institute in Indonesia and in Timor-Leste) on « Coastal areas governance in the context of rapid tourism urbanization and climate change in Southeast Asia », with AIT Thailand, UNTL in Timor-Leste, and UNUD Bali in Indonesia. Workshops and conferences for results dissemination were held in Indonesia in April 2017, in France in June 2017, in Thailand in September 2017 and in Timor-Leste in February 2019.

Current Research Topics

- Member of the working group « Southeast Asia under Chinese influence: new normative circulations – ASEAN-China Norms II », dir. Elsa Lafaye de Micheaux (CASE / INALCO).
- Coastal areas planning and urbanization confronted with environmental risks in South-East Asia; environmental risks (pollution, wastes, climate change effects) and the way they are taken into account in politics and public services; Territorial governance, in which power rivalries, conflicts, non-judicial factors influence on coastal real estate and tourism planning.
- ASEAN coordinated response to Disasters (HADR) / HADR Exercises (humanitarian assistance and disasters relief).
- Southeast Asia and ASEAN Reinforcement.
- Geopolitics of Timor-Leste in its regional environment.
